### Young Icons

The Young Icons is a television program that provides educational and informational segments exposing the target audience of young viewers to accomplished 'teens' that have set goals and are giving back to their communities as mentors, scholars, entrepreneurs and philanthropists. Each guest shares their personal stories of what motivated them to take on their passion and/or focus in their chosen field of endeavor. One guest's message inspires young audiences to "never let age hold us back, no matter how old you may be". Parents play an important role in supporting their 'young icons'. As one parent stated, "You can take a simple idea and turn it into something that can help an awful lot of people." The program provides a motivational and inspirational message that empowers audiences of all ages that hard work; dedication and looking beyond ourselves will pay off for everyone. Each segment of The Young Icons delivers an educational and informational message that supports current social, intellectual and emotional aspects of children ages 13 and up. Attributes and advice emphasized by guests instill a grounded balance of priorities, commitment, and perseverance children can apply to their lives.

### Real Life 101

Real Life 101 presents real people pursuing real jobs and careers in an educational and informational format designed to help its viewers make important decisions about preparing for the future. The careers and people featured are carefully selected in order to present vivid impressions that can be used by the series young audience.

### Jack Hanna's Into the Wild

Into the Wild provides educational for children in the 13-16 age range. The program content is suitable for both the secondary classroom and general audience with content addressing several academic outcomes designated by both state and national life science standards. Shot from a number of photographic perspectives, the viewer is introduced to the biodiversity of the area, how are animals adapted to the environment, and the changes humans have imposed on the environment as well as the positive impact of local conservation efforts in the region. Jack brings the affective aspect to wildlife education, engaging the emotional appeal of the wild animals and the conservation message to encourage the audience to take an active interest in preserving wildlife.

### Dog Tales

"Dog Tales" serves the educational and informational needs of children 13-16 years of age with its program content, including dog safety and care tips, as well as lessons on the responsibility of owning a dog. The show also provides informative segments on various dog breeds and showcases various veterinary experts explaining different issues affecting canines. The weekly series also includes recommended reading lists about dogs, and promotes children's writing and creative skills with essay and art contests.

### Missing

"Missing" serves the educational and informational needs of children 13 to 16 years of age with its program content, including safety tips and real life stories using various resources to help find missing people. The show is also a public service to communities across the United States.

### Eyewitness Kids News

The mission of Eyewitness Kids News is to produce a weekly news program that provides information and news to kids in a manner that is educational as well as highly entertaining. The target audience for the program is 13 to 16 year olds. It is designed to appeal to the audience on its own level. The focus of the program is young people, always letting them tell their stories in their own words. The large, diverse news anchor team is unique in television and has great appeal on kids who identify and emulate them. This program serves the audience in a way that makes a real difference in their lives. It inserts the clear voice of the kid into the adult-dominated media and provides a unique perspective to the news that is not currently available on network television. This is a unique way of doing business in the crowded world of television news. There is no current news programming that features actual kids reporting to other kids on television. There have been shows by adults working with kids but none that a young audience can literally identify with. TKN is filling that void and has captured the imagination of America, becoming the first program in history targeting the next generation of news viewers.

### Dragonfly TV

"Dragonfly TV" is a weekly half-hour science television series that meets the educational and informational objectives of the FCC's Children's Programming requirements for children ages 13-16. The programs highlight children "doing" projects with real hands-on experience and demonstrates practical applications of mathematics and science. It introduces young viewers to a variety of scientific disciplines and challenges them in critical thinking and problem solving skills, while providing valuable information to reach answers. Each episode is engaging, entertaining and educational in structure, allowing children to investigate science on their own. "Dragonfly TV" is closed-captioned for the hearing impaired and displays the "E/I" icon throughout the broadcast.

## REAL LIFE 101 EPISODE SYNOPSIS

### Episode 167

We'll revisit Luis' interview with Philippe Cousteau of EarthEcho International and learn about his goal to empower people to conserve and protect our world's oceans. And for our Real Life 101 Flashback, we'll bring you back the very touching interview we did with a neonatologist. This is a medical doctor that treats premature and sick newborns. Plus, for those of you who envision themselves working on shows like Dancing with the Stars, Carley will take us to the studio of a choreographer and see how she turned her passion into a career.

### Episode 168

Looking for a real adrenaline rush? How about wrestling alligators in front of an audience? That's how we start today's Real Life 101 Remix. Then we'll flashback a few years to our interview with a sound engineer. Let's see if the technology has changed much as we see how he creates exciting audio on everything from our favorite recordings to talking books. We'll also bring back the interview our past segment reporter, Carley, did with a dietician who makes up a special diet for kids with seizures that helps them go seizure free.

### Episode 169

We're going to start out with a very demanding career that only a select few get chosen for. You'll want to watch as Luis talks with a man who works for the FBI.

For our flashback segment, we'll step back in time just a bit . . . to an era when the neighborhood barber shop served up a real social experience along with shaves and haircuts. Plus, we'll go out on a call with an animal control specialist to find out what type of "vermin" is living in her client's attic. You heard me right, the animal trapper is a female!

### Episode 150

As we start a new season of REAL LIFE 101 we are going to take a look back at three of our viewer's favorite segments. We revisit the hazardous waste shed where Shawn meets an environmental engineer who helps his company go green. Then we'll look back and see how a child life specialist uses play therapy to calm young patients and help them understand their medical treatment. And finally, we'll meet the Orlando Magic's Nick Anderson and find out about the career of a professional basketball player.

### Episode 151

Today we start off at a sports radio station where Shawn meets up with the sports director in the control room, then Shawn is off to meet a lady who works with the elderly and their families coordinating their care. Finally, Shawn will meet a guy who the entertainment bug hit early in life and see how he helps others make it big in the field of entertainment.

### Episode 152

Gracey is going to take us to the brand new Dali Museum in St. Petersburg, Florida where we'll meet the man who organizes all the fascinating programs the museum offers.

Then Shawn will meet a man who works to convert banking software from an outdated systems to a new improved system.

Then it's off to the stables for Gracey where she learns how horseback riding is beneficial to people with disabilities.

### Episode 153

Shawn's going to visit a children's book author and see how he comes up with the ideas to write and illustrate his books that are sold all over the world.

Are you into using cool tools to fix things? How about a profession fixing people's musculo-skeletal injuries and problems?

Then Shawn will meet a lobbyist and see how she advocates for causes and gets laws passed.

### Episode 154

Gracey will take us into the exciting world of a movie stunt coordinator and see what goes into thinking up and pulling off those death defying stunts.

We'll keep the entertainment going when Shawn visits one of the country's premiere arenas and get a glimpse into what it takes to put on the great events that take place there.

Plus, Gracey will go into the lab of a materials scientist to see how she experiments and develops cosmetics and pharmaceuticals.

### Episode 155

Shawn will start us off at a pedorthist's office where he learns that not all feet . . . or shoes . . . are created equal.

Then Gracey will find out what it takes to be a successful salesperson in the rapidly developing software industry.

Plus, Shawn will chat with a student intern in the control room of a sports radio station and find out why interning is so important.

### Episode 156

Gracey learns that chemistry and biology are fascinating fields when she takes us to the lab of a bio-chemist and sees them applied in research to combat diseases. Then Shawn finds that the sky's the limit when he goes into a hanger and meets with a certified flight instructor and learns how he teaches aspiring pilots to fly. Gracey will also meet up with an interpreter/translator and see how she uses her tri-lingual skills to interpret one language to another in court hearings and doctors offices.

### Episode 157

Shawn will meet a guy who proves that no matter what junk life dishes you, you can overcome it to be anything you want be including working with the President of the United States. And for those of you looking for a career in music, Gracey will take us to a beautiful cathedral where she meets the music director. Finally, we'll visit an entomologist who comes to the rescue when people have bees swarming all over. Wait til you hear some of his stories!

### Episode 158

Might your dog benefit from massage therapy or acupressure? Gracey will introduce us to a couple of ladies who provide alternative treatments for man's best friend. Shawn will learn how the relationship a salesperson has with his customers is an important part of determining success in the sales field. Finally, Gracey will also talk to a technical writer and see what goes into writing the instruction manuals on today's high tech products, medical proposals and other things to make them understandable by regular people.

## Episode 159

**You may have dreamed about driving a train when you were little. Shawn visits an Amtrak station and learns what the career of a train engineer is really like. Like looking at slides under a microscope? Gracey will visit a lab where she talks to a histologist and see what he's looking for as he examines those slides. Then Shawn will go to a resort and learn about the team that designs and builds those inviting and extravagant pools where guests spend hours playing and relaxing.**

**Updated 2.22.12**

**Episode 101**

**Lewa: Fast and Deadly**

Check out the first season of Jack Hanna's Into the Wild. It's the same old Jack, only better! Join Jack in Kenya as he tracks a trio of hunting cheetah, braves a pack of scavenging jackals, and then with wife Sue meets an extremely endangered and undeniably cute baby black rhino.

**Episode 102**

**Lewa: Great and Small**

Jack's on a mission in Kenya and he's heading straight for the world's largest land mammals -- African elephants and white rhinos! And, we all know Jack never forgets the little guys, join in as he uncovers some delicate and vital relationships in the animal kingdom.

**Episode 103**

**Bloopers, Blunders and Behind-the-Scenes**

If you thought your home movies were embarrassing, just wait until you get a load of Jack's bloopers. Join Jack behind-the-scenes for some of his most memorable moments like getting pecked by an ostrich, tangling with a snake, taking fashion advice from a Samburu warrior and more!

**Episode 104**

**Road to Recovery**

Join Jack in a place near and dear to his heart, Rwanda's Akagera National Park, where he finds new hope for wildlife after years of turmoil. Then Jack gets up close and personal with the biggest wild elephant he's ever seen in his life!

**Episode 105**

**Gorillas of Rwanda - Part One**

Jack travels to Rwanda where he meets up with some old friends and makes some new ones at two very different, but inspirational orphanages. Join Jack and his family as they encounter extremely rare golden monkeys while trekking through the jungle in search of endangered mountain gorillas. Then Jack holds an impromptu golf tournament with his beloved camera crew.
