

Explanation of WYOW's 3Q 2015 Issues/Programs List Time/Date Stamp

On November 13, 2015, the station was performing routine clean-up/clean-out of its online public inspection file. During this process, the station inadvertently deleted its issues/programs list for third quarter 2015, which had been previously timely uploaded by the October 12, 2015, deadline.

Shortly after the inadvertent deletion, the station realized its error and restored the file to the online public file. Images of the deletion and restoration are below, and a screen shot of the deletions is attached to this explanatory sheet. The issues/programs list was deleted from the public file for less than one hour on November 13, 2015.
