

The attached document was timely prepared by the January 10, 2019, deadline.

As a result of the federal government shutdown that started on December 22, 2018, the FCC's online public file (OPIF) system was inaccessible and non-functioning from January 3, 2019, until January 27, 2019.

Consequently, the attached document was not uploaded until after the January 10 quarterly filing deadline, after the federal government re-opened and the FCC's OPIF system was put back into service.
