Corporate, Foundation, Government and Association list for FY 2004-2008

In this list page is the latest version of the CFGA list -- Corporate, Foundation, Government and Association list for FY 2004-2008. This list is also referred to as "Underwriters of PTV Programming".

This list contains the name of Corporate, Foundation, Government, and Association funders of PBS programs for the past five complete fiscal years (FY 2004-2008) arranged by funder name. It gives program titles, funder, and original broadcast dates. It shows only underwriters whose contributions were used for production purposes. It does not show grants that were used for outreach and promotion purposes, or any other project connected with the program other than actual production.

Other Sources of National Underwriting information

You can also get current information about individual programs on PBS Connect via the Program summary finder.

Program | Schedule > Program Summary Finder > (search by title or NOLA).

Please note that for purposes of your Public Inspection file, PBS also keeps lists of all donors covered by "Various" in reports and funder lists, or by a message on the air "a list is available from PBS". (Sometimes there are pages of names, too many to put on the air.) These lists are posted on Connect in the same location as this CFGA document.

Develop | Fundraise > Program Funder Lists > Additional Donor Lists.
