CORRECTION TO CHILDREN'S TELEVISION PROGRAMMING REPORTS

Alabama Heritage Communications, LLC ("AHC"), at the advice of the Commission's staff, is uploading this statement to correct an error contained in a number of its Children's Television Programming Reports, in particular, the quarterly Reports in and before 2019. AHC erroneously stated that it provided 168 hours in response to the question stating: "State the average number of hours per week of free over-the-air digital video programming broadcast by the station on other than its main program stream." Station WEAC does not, and did not, multicast; it has not provided any programming other than on its main program stream. The response to that question should therefore have been "0" or "N/A."
