

WUPW-TV (FOX) ONLINE PUBLIC FILES
2013 and 2014 Issues & Programs Report
Incident – 3/8/16

3/8/16

Approximately 11:45AM ET

During an upload to the WUPW online public file, it was also found that the 4th Qtr 2013 and 1st through 4th Qtr 2014 *Issues and Program Reports* had been inadvertently deleted on or about the same time that the *Records Concerning Commercial Limits in Children's Programs* issue occurred. Lisa McManus, Program Manager immediately attempted to recover the deleted files for the station using the recovery function that is available on each online public file under the RECYCLE BIN tab. When efforts to do this on WUPW's site was unsuccessful, Lisa immediately re-uploaded the missing reports and drafted a timeline to be posted as documentation of the issue since the original time stamp (i.e. the dates of original filing with the FCC) will not appear on the restored files.
