

**Quarterly Issues Program List for WWJO-FM, KLZZ-FM, KMXK-FM, KZRV-FM, KXSS-AM**  
January 1, 2020 – March 31, 2020

**Section I. Issues**

The stations have identified the following issues facing our community in this quarter:

- A. **2020 Census:** The 2020 census is here, and it's important for central Minnesotans to understand why participating is crucial (and the law). Much rides on the updated and accurate demographical information of Minnesotans.
  
- B. **Addiction:** The devastating consequences of addiction include increases in opioid misuse and related overdoses. Tens of thousands of Minnesotans are addicted to alcohol and drugs, and many of them eventually end up unemployed, broken, separated from their families and homeless.
  
- C. **Mental Health:** Minnesotans face a wide array of mental health issues, that often go undiagnosed. More difficult to see than physical health issues, mental health problems, if left untreated can be just as devastating.
  
- D. **Healthcare:** The topic of healthcare is one of the most debated issues in Minnesota. Millions are struggling with the high cost of care; doctors are burning out and patient-doctor interaction is at an all-time low.
  
- E. **Policing:** Body-worn cameras are being added to central Minnesota police and sheriff's departments. The new technology increases transparency, but is it leading to better relationships between the public and police?
  
- F. **Marijuana:** Minnesota's medical marijuana industry, and continued potential for legalization of marijuana for recreational use, are constant topics of concern and discussion in central Minnesota.
  
- G. **Alzheimer's & Dementia:** Memory loss and dementia affects individuals and families alike across central Minnesota. There is a need to address available treatments and care options for those affected.
