6-12-2020 JUGGLING KIDS WORKING FROM HOME PKG 1]
Topic: How to Juggle Responsibilities of Parenting, Working from HomeExpert: Callie Kofod, Certified Child Life Specialist, Intermountain Primary Children's HospitalTalking Points: Many Utah parents are working from home during the pandemic, and with schools closed, have been juggling responsibilities of parenting young children with job requirements. Now that the summer is here, for many parents, the juggling will continue for the foreseeable future. Child life specialists at Intermountain Primary Children's Hospital help patients cope with such stress through play, education, and normalization of the medical environment. Some of their techniques also can be used by parents at home to help kids and their families thrive in challenging times. Establish a daily routine to promote a sense of control, predictability, and well-being for parents and for children. Here's how:• Enlist your children's input in creating a schedule. • Post the schedule where they can see. • Allow for variety & choice within a schedule to keep children engaged. It's important to plan for 'wake up & get ready time,' outdoors time, independent play time, and other activities. Limit screen time for yourself and your child. • Give children cues to help transition to activities throughout the day, such as a fun alarm or music. • For times you cannot be interrupted, find a fun and creative way to communicate that to your family, like by wearing a silly hat or tying a ribbon to the doorknob. • Stay flexible, and revise the schedule as needed. • Allow grace while managing schedules. Celebrate when things go well, and forgive yourself when they don't. Make time for play every day. Play is a child's language and critical for development. Spend time outside. Find things to celebrate, look forward to, and to smile and laugh about every day. Even 10 minutes of play time is helpful.Use your work breaks to connect with your children. Have lunch together. Take walks together. Do a household chore together. Plan one-on-one time in their schedules with each child, every day, and give them your full attention. No phones Most kids will need less attention from parents when they have that time to connect and feel they have their parent's full attention at some point during the day. Make it a priority to connect with family and friends to help children know they are loved and supported. Use technology to connect and show friends or grandparents a project your child made while you were working, read together, sing songs or talk while you're working.

MAYOR'S OFFICE RESPONSE TO ACLU CRITICISM:The City vigorously protects and defends individuals' first amendment rights but recognizes that there are special circumstances in which time, place and manner restrictions are appropriate, such as these unprecedented times to protect public safety.This one week long curfew is content neutral and advances the significant government interest of protecting public safety. I determined that the best way to protect all citizens and neighborhoods of Salt Lake was to have a curfew from 8 p.m. to 6 a.m. City-wide for the limited period of one week.The curfew is limited to public spaces and streets, and the public is still able to go to private property (including events, with social distancing), patronize businesses, go to work, and care for loved ones. The order also allows for requests to the Mayor for exceptions, if there are circumstances that are not addressed in the order.That said, we have spoken directly with the ACLU and respect their concerns. We are constantly evaluating this situation and may reevaluate the scope and length of the curfew as the situation continues to be peaceful. We also will step up our outreach to residents who may not be English-proficient.

DOCTOR TORRI METZ IS LEADING THE STUDY, WHICH INVOLVES FOLLOWING UP TO 21 THOUSAND PREGNANT WOMEN AND ANALYZING THEIR MEDICAL RECORDS. THE STUDY WILL LOOK AT SEVERAL DIFFERENT FACTORS OF HOW COVID-19 IS EFFECTING PREGNANCY FOR WOMEN. IT'LL COMPARE PREGNANT WOMEN WHO ARE INFECTED WITH COVID VERSUS THOSE WHO DON'T HAVE THE VIRUS. IT'LL LOOK TO SEE IF CHANGES TO HEALTHCARE DUE TO THE PANDEMIC HAVE RESULTED IN HIGHER RATES OF PREGNANCY RELATED COMPLICATIONS COMPARED TO WOMEN WHO HAD A BABY AT THIS SAME TIME LAST YEAR. IT'LL ALSO LOOK AT THE RISK A PREGNANT WOMAN WHO HAS COVID-19 HAS OF TRANSMITTING IT TO HER BABY. SCIENTISTS WILL ALSO TRACK THE HEALTH OF MORE THAN 15 HUNDRED PREGNANT WOMEN WITH CONFIRMED CASES OF COVID— 6 WEEKS AFTER CHILDBIRTH. SOT Dr. Torri Metz associate professor and vice chair for research at the university of Utah health 8:30-8:30-24' I think it's going to provide short term answers in terms of what we can tell women about coronavirus and COVID-19 infection but hopefully it's also going to provide us with some information about what we can expect when we have any kind of massive change to the way we practice medicine in the United States and how that will affect women and their babies. 6-15-2020 8A BEAR LAKE MONSTER MOVIE PKG 1]
[F:TPL3:BRANDON SMITH/FILMMAKER/][X][V][X][F]GUEST: Brandon Smith, Filmmaker TOPIC: Upcoming film production featuring The Bear Lake Monster For almost 200 years, the Bear Lake Monster has mystified those who've dared enter the waters that span the border of Utah and Idaho. What is it about the local lore and countless campfire stories that has filmmaker Brandon Smith ready to make a movie about this magnificent sea creature? SUGGESTED INTERVIEW QUESTIONS: 1. When did you first learn about the legend of the Bear Lake Monster? 2. You describe your movie as a teen action-adventure, what will the movie be about? 3. Production for your movie starts late summer, how can people be involved with this movie? 4. Why is it important for you to tell this story? - Whenever someone visits Bear Lake for the first time they quickly learn a few things about its crystal blue waters, namely the water is really cold even in mid-summer, and legend has it there is a monster lurking in its depths. According to legend, members of the Shoshone native American tribe have been telling stories about a monster in the lake for hundreds of years. If true, sightings of the Bear Lake Monster go back even further than that of the more famous Loch Ness monster. Fast forward to a decade ago, filmmaker Brandon Smith makes his first visit to Bear Lake and is introduced to the legend. 'Even though I grew up in Utah, I'd never been to Bear Lake until recently,' said Smith, writer, director, and producer of the new film. 'The whole area is absolutely beautiful and then you throw in a monster story - what could be better than that?' Several years ago, Smith was struck with the idea for a film about the celebrated creature. 'I describe THE LEGEND OF THE BEAR LAKE MONSTER as THE GOONIES meets JAWS,' quipped Smith. 'It's a true teen action-adventure based around three teenagers attempting to prove the monster's existence. And of course, as teenagers do when they go looking for trouble, they find it.' The story features three main characters, two teenage female leads and one teenage male lead, with the two women characters as the main catalysts of the film 'The film's plot hinges on these two strong-willed, intelligent female characters,' explained Smith. Smith is planning to do a primary photography later this summer and shoot on location at Bear Lake with some additional scenes shot in the Heber Valley. To raise funds for the film, Smith is launching a Kickstarter campaign on May 26. 'Donors to our Kickstarter campaign will be thanked in the actual film,' said Smith. 'Depending on their donation level, donors can choose to have a family photo featured in the film or during the credit roll at the end of the film. We are hoping a lot of donors have ties to Bear Lake and have photos that were taken at the lake.'

A NEW APP DESIGNED BY A UTAH SCHOOL COUNSELOR COULD HELP US GET MORE WORK DONE.PEOPLE WHO'VE BEEN USING SAY IT'S CHANGED THEIR WORK HABITS FOR THE BETTER.WE ALL HAVE THOSE TIMES WHERE WE STRUGGLE TO FOCUS, WHETHER IT'S AT SCHOOL, WORK, OR HOME... AND FOR A LOT OF US, HOME IS THE ONLY PLACE WE CAN BE RIGHT NOW.ⓂWith Coronavirus, everyone's displaced from their normal work environment, they're already off task."AN APP DESIGNED BY A UTAH COUNSELOR COULD HELP YOU STAY ON TASK.IT'S CALLED THE 'BEEPER APP'.<*NAT POP*>IT MAKES A SOUND AT RANDOM OR SPECIFIC TIMES.YOU START BY CHOOSING HOW LONG YOU WANT TO WORK FOR, HOW OFTEN YOU WANT THE SOUND TO GO OFF, AND WHICH SOUND YOU WANT IT TO MAKE.ⓂTHE CREATOR, ALAN JACOB, SAYS THE IDEA CAME FROM WHEN HE USED TO BE A TEACHER 18 YEARS AGO.HE WOULD USE A 30 MINUTE TAPE WITH A STUDENT THAT WOULD BEEP AT RANDOM TIMES.'He would have a separate piece of paper and he would keep hash marks.'THOSE HASH MARKS WOULD HELP THE STUDENT KEEP TRACK OF HOW OFTEN HE WAS ON TASK.WITH THE APP, YOU JUST PRESS THE BUTTON IN THE MIDDLE OF THE SCREEN THAT SAYS 'I'M STILL ON TASK'.<*NAT POP*>THE IDEA IS TO JOLT YOUR BRAIN INTO REMEMBERING

WHAT YOU'RE SUPPOSED TO BE FOCUSING ON. [1:33-44]{HOLLIE HULLINGER / APP USER}'What I do is, I'm working and all of a sudden I'll start drifting at what's going on outside and the beeper will go off and I'm like, oh, you're right, I'm not on task so I push the beeper and get back to work. [JODI BECK \ SPECIAL EDUCATION TEACHER, PAYSON HIGH SCHOOL]'I could be helping someone and that beeper would go off and then the kids would be like, oh I'm doing what I'm supposed to be doing, so it was a way to help me actually as a teacher have an extra assist in my classroom.'MAKENZIE SMITH, A PAYSON HIGH STUDENT, SAYS SHE HAS A TIP TO MAKE THE APP EVEN MORE EFFECTIVE.{MAKENZIE SMITH \ STUDENT, PAYSON HIGH SCHOOL}'When I turn the app on, I turn on 'Do not disturb', so that way when I get a text or a Snapchat I'm not automatically moving over to that.'<*NAT POP*{WHEN THE TIME IS UP, YOU CAN REVIEW YOUR RESULTS TO SEE HOW ON TASK YOU WERE.{ALAN JACOB \ CREATOR, BEEPER APP}'There are people out there that may think, 'Oh my gosh, out of an 8 hour day that I'm working at home, I might have three hours of productivity. The rest of my time, I'm just struggling.' well, this may bump that up higher.'{JORDAN HOGAN/@jordyjourn}I USED THE BEEPER APP WHILE PUTTING THIS STORY TOGETHER AND I FEEL LIKE IT HELPED ME GET EVERYTHING DONE QUICKER BECAUSE I SPENT LESS TIME CHECKING MY SOCIAL MEDIA.

[0:06Mark KantrowitzPublisher & Vice President Of Research, Savingforcollege.com0:24Andrew SmithChief Investment Officer, Delos Capital Advisors0:43Stefanie O'Connell RodriguezPersonal Finance Author]Coronavirus Cash Crisis: Should I refinance my personal loans?"You can refinance a private loan into a new private loan to take advantage of the lower rate. So if you have higher-interest rate private loans, before you target them for extra payments, see if you can't refinance them at a lower interest rate. That may be a more effective way of saving you money," said Mark Kantrowitz, publisher and vice president of research for Savingforcollege.com."Interest rates have come down quite a bit, so individuals should be looking to refinance. And that's not just for mortgages: Go look about refinancing, potentially, your cars. ... See if you can work with the credit card companies on lowering the interest rates on those credit cards, or transfer those credit card balances to another company that might have a more advantageous interest rate," said Andrew Smith, the chief investment officer for Delos Capital Advisors."But the fact is this is a rapidly changing economic environment. And if in two weeks you no longer have a job, how are you going to feel if you have to pay a huge lump sum and closing costs because you refinance? So it's really just important to weigh all of the options. ... But also make sure you're taking into account the fact that things could change for your personal financial circumstances at any moment," said Stefanie O'Connell Rodriguez, a personal finance author.

It's been a source of heartache."VICE PRESIDENT MIKE PENCE MET WITH FAITH LEADERS IN IOWA, TALKING ABOUT HOW TO REOPEN AMERICA'S PLACES OF WORSHIP.SINCE EARLY APRIL, EMPTY PEWS BECAME THE NORM ACROSS THE COUNTRY AS BRICK AND MORTAR BUILDINGS CLOSED TO PREVENT THE SPREAD OF THE CORONAVIRUS, BUT, MANY LAMENTED THAT ONLINE SERVICES COULD NEVER REPLACE THE LONG ABSENCE OF TREASURED TRADITIONS.HARTMAYER says: "You know, they missed the Eucharist. WHETHER YOU TAKE PUBLIC TRANSIT -- OR GO BY CAR -- THE CDC SAYS THERE ARE WAYS TO LOWER YOUR RISK OF CORONAVIRUS INFECTION.FIRST -- BE AWARE OF FREQUENTLY TOUCHED SURFACES -- FROM KIOSKS TO TOUCHSCREENS -- TICKET MACHINES TO TURNSTILES -- LIMIT TOUCHING ANYTHING THAT A LOT OF PEOPLE HAVE HAD THEIR HANDS ON -- AND IF YOU MUST TOUCH THESE SURFACES -- WASH YOUR HANDS FOR 20 SECONDS WITH SOAP AND WATER -- OR RUB YOUR HANDS WITH SANITIZER CONTAINING 60-PERCENT ALCOHOL -- AS SOON AS YOU CAN.THE CDC SAYS SOCIAL DISTANCING IS ALSO IMPORTANT IN BOTH CARS AND ON PUBLIC TRANSIT.WHEN POSSIBLE -- TRY TO TRAVEL DURING NON-PEAK HOURS -- AND STAY SIX FEET AWAY FROM THOSE NOT IN YOUR HOUSEHOLD --CONSIDER SKIPPING A ROW OF SEATS BETWEEN YOURSELF AND OTHER RIDERS --AVOID GATHERING IN GROUPS AND STAY OUT OF CROWDED SPACES WHEN POSSIBLE -- ESPECIALLY AT TRANSIT STATIONS AND STOPS.FOR THOSE TRAVELING IN TAXIS OR RIDESHARES-- THE CDC ADVISES OPENING WINDOWS WHEN POSSIBLE TO IMPROVE AIR CIRCULATION -- OR ADJUSTING THE AIR CONDITIONER TO MAKE SURE THE AIR ISN'T RECIRCULATING. IT ALSO RECOMMENDS AVOIDING POOLED RIDES OR RIDES WHERE MULTIPLE PASSENGERS ARE PICKED UP WHO AREN'T IN THE SAME HOUSEHOLD.FOR TODAY'S HEALTH MINUTE, I'M MANDY GAITHER.

Doctors we spoke with say this is a sign there's progress in the fight against covid 19 but things are still far from business as usual[Dr. Arlen Jarrett, Steward Healthcare]47:36-47:40 we have seen a downward trend - an appropriate downward trend in new hospitalizations THAT BENDING OF THE CURVE ALLOWED THE STATE TO RELEASE THIS PUBLIC HEALTH ORDER. IT GIVES HOSPITALS THE GO AHEAD TO PERFORM ELECTIVE PROCEDURES. [Dr. Sam Finlayson, University of Utah]40:43-40:50 we didn't want to bring people out of their homes into a risky environment, when they actually didn't need to and could wait. SPECIFIC PROCEDURES THAT CAN HAPPEN NOW WEREN'T GIVEN - INSTEAD EACH CASE WILL BE EVALUATED INDIVIDUALLY. [Dr. Mark Briesacher, Intermountain Healthcare]23:40-23:54 much of this depends on how is each patient doing. Are they safe to wait is their condition worsening. Are they are risk of having harm if surgery is being delayed. AS COVID-19 IS STILL A VERY BIG THREAT - EVERYONE WHO HAS A PROCEDURE, MUST FIRST TEST NEGATIVE FOR THE VIRUS. [Dr. Sam Finlayson, University of Utah]49:46-:57 we wouldn't want to operate on somebody when they had covid that was not showing symptoms, because then if they develop symptoms after the symptoms.
