Re: Carriage of PBS Stations After the Digital Transition

Dear Peter Morrill:

Please be advised that under the terms of the NCTA-negotiated deal governing Time Warner Cable's ("TWC") post-digital transition carriage of PBS stations (the "PBS Agreement"), TWC has designated your PBS station (the "Station") as the so-called "primary" PBS station in the following TWC systems: Moscow/Pullman.

As a result of this designation, TWC will carry both the analog and digital signals of the Station in the above-referenced systems, in accordance with the terms of the PBS Agreement. If the Station is entitled to be carried in any TWC systems that are not listed above, then TWC has not designated the Station as the "primary" PBS station in those systems and will therefore carry the Station in those systems in accordance with its election of analog or digital carriage in accordance with the PBS Agreement.

Please feel free to email or call me at [Deena.gibbs@twcable.com](mailto:Deena.gibbs@twcable.com) or 208-892-5501 with any questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read 'Deena M. Gibbs'.

Deena M. Gibbs
