Workforce education programs in Arkansas may receive increased funding next year. This week on Talk Business and Politics, Governor Hutchinson said expanding improving the quality of high school workforce training programs would be a top priority during his last year as governor.

News20 0:19 “...in this state.”

According to Governor Hutchinson the number of Arkansas high schools without a workforce training program has dropped from 54 to 1 during his tenure as governor.

Governor Asa Hutchinson says his last year in office will be dominated by expanding broadband internet access and taking advantage of infrastructure funding provided by the Biden administration. On Talk Business and Politics this week Governor Hutchinson said the Infrastructure Investment and Jobs Act passed earlier this year is a rare opportunity for states to make big strides on important projects.

News21 0:18 “...our investment there.”

Hutchinson is term-limited from running for governor again, but said he plans to remain active in politics, possibly at the national level.
