Re: Alternative Broadcast Inspection Program Certificate

Congratulations! Enclosed, please find your Massachusetts Broadcasters Association Alternative Broadcast Inspection Program *Certificate of Compliance* for WMVY-FM. Your certificates should be placed in plain view in one of two places:

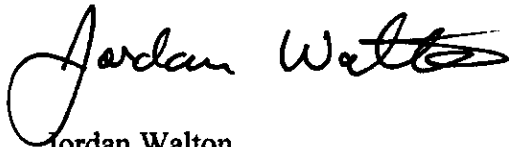

- 1) On the wall in the entrance area of the station's main studio.
- 2) In the station's FCC authorization binder at the main studio.

Your station now has the right to verbally inform any person who enters the main studio of the station – who identifies himself/herself as an FCC inspector seeking to conduct an FCC inspection- that the station holds a valid *Certificate of Compliance* from the Massachusetts Broadcasters Association.

Your station is now safe from further FCC inspection – notwithstanding a “Targeted Tower Safety Inspection,” “Complaint Driven Inspection,” or the inspection of any EEO or political advertising materials required to be placed in your station's public file – for a period of three years from the date on the certificate.

Thank you for taking advantage of one of the most beneficial programs the MBA has to offer.

Sincerely,

Jordan Walton
Executive Director
