### **Clean Air Campaign**

As Georgia grows, so do its traffic congestion and air quality challenges. Addressing these challenges requires a full-range of strategies -- from strategic investments in new transportation supply to demand management strategies that ensure we are making the most efficient use of our transportation investments.

The Clean Air Campaign works under contract with Georgia DOT to deploy a suite of cost-effective demand management programs and services to Georgia employers, commuters and schools.

The Clean Air Campaign and its partners offer assistance to more than 1,600 employers to design and implement commute options programs that make business sense; protect public health; offer targeted incentives to commuters and employers; provide Smog Alert notifications; and work with elementary, middle and high schools to protect children from harmful pollution and empower children to take a positive role in reducing traffic and cleaning the air.

---

The Clean Air Campaign also secures private funding through corporate and foundation grants to conduct additional programs and expand its impact.

Each day, these efforts help reduce traffic by more than 1.4 million vehicle miles and keep 700 tons of pollution out of the air we breathe.

Plunge into the mysterious world of whales and explore their relationship with humans in this NEW special exhibition. Featuring a unique blend of science and storytelling, this interactive exhibition is filled with fun ways to explore whales from the inside-out.

Highlights include opportunities to explore whale songs, traditional legends from the South Pacific, beautiful artifacts, enormous whale skeletons up to 58-feet-long, and unique experiences such as climbing through a life-sized model of whale heart (that's as big as a car!).
