Facility Id: 14506

Call Sign: KWPZ

License File Number: BMLH-20081008AJR

Grant Date: February 19, 2009

This license expires 3:00 a.m.  
local time, February 01, 2014.

This License Modifies License No.: BMLH-20070319ABN Dated: 3/21/2007

Subject to the provisions of the Communications Act of 1934, subsequent acts and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions set forth in this license, the licensee is hereby authorized to use and operate the radio transmitting apparatus herein described.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve the public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This license is subject to the right of use or control by the Government of the United States conferred by Section 606 of the Communications Act of 1934.

Name of Licensee: CRISTA MINISTRIES

Station Location: WA-LYNDEN

Frequency (MHz): 106.5

Channel: 293

Class: C

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: 25.5 kW

Antenna type: Non-Directional

Description: KAT KATHREIN 6 X 3 754 154 PANEL ANT, 1.5 DEG BEAM TILT

Antenna Coordinates: North Latitude: 48 deg 40 min 46 sec  
 West Longitude: 122 deg 50 min 31 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	63	63
Maximum effective radiated power (kW):	68	68
Height of radiation center above ground (Meters):	114	114
Height of radiation center above mean sea level (Meters):	756	756
Height of radiation center above average terrain (Meters):	711	711
Antenna structure registration number: 1032381		

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

## Special operating conditions or restrictions:

- 2 The authority granted herein is subject to the condition that the field intensity from the licensee's transmitter shall not exceed 27 mV/m as measured at the Federal Communications Commission's Ferndale, Washington office. In the event of interference to monitoring, direction finding, or related operations at the Federal Communications Commission's Ferndale, Washington office caused by either harmonic or spurious radiation, the licensee shall take such immediate corrective action as is necessary to eliminate the interference. This shall include responsibility for furnishing, installing, and adjusting transmitter filter circuits, shielding, or other corrective devices which may be necessary to minimize harmonic or spurious radiation. If these measures fail to eliminate interference to FCC operations caused by the presence of the licensee's signal, or if the field intensity exceeds 27 mV/m, the licensee shall immediately reduce power to the extent necessary to eliminate the interference and to comply with the field limit. After determining this lower power level, the licensee shall immediately apply for a Special Temporary Authority (STA) and shall file an application for construction permit to the Commission for the altered parameters.
