Special operating conditions or restrictions:

- The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

- 2 Covenant Communications, Inc. requests waiver of 47 C.F.R. § 73.509 to allow Station WKNG-FM, as authorized herein, to receive contour overlap from the 100 dBu contour of second adjacent channel Station WEYY(FM), Tallapoosa, Georgia (Facility ID No. 169466) on Channel 204A. We have afforded this request the "hard look" called for under *WAIT Radio v. FCC*, 418 F.2d 1153 (D.C. Cir. 1969), and find that the facts and circumstances presented in the applicant's justification are sufficient to establish that grant of the requested waiver is in the public interest. Accordingly, waiver of 47 C.F.R. § 73.509 IS HEREBY GRANTED. Further modifications of Station WEYY(FM) will not be construed as a "per se" modification of WKNG-FM's facility. (See *Educational Information Corporation*, 6 FCC Rcd 2207 (1991)).
- 3 Grant of this license application is conditioned on the continuous operation of the licensed facility for the twelve-month period following grant. The failure of the facility to so operate will result in the rescission of this grant, dismissal of the license application and the forfeiture of the associated construction permit pursuant to 47 C.F.R. § 73.3598(c) unless the licensee rebuts the presumption that the authorized facilities were temporarily constructed.
